

SiOO:X END GRAIN SEALER APPLICATION INSTRUCTIONS

PREPARATIONS: Apply Wood Protector End Grain Sealer to completely clean wood ends. Apply the Surface Protector End Grain Sealer to the ends treated with Step 1. Cover furniture, objects that are sensitive to splashes, as well as glass, aluminum, stones and tiles - the products are slightly alkaline and can leave stains.

APPLICATION ADVICE: The timber needs to be dry. Avoid rain. Lowest temperature for use: +6°C. Shake and stir before and during treatment. Wipe away any spills immediately with a wet cloth.

STEP 1 – SiOO:X WOOD PROTECTOR END GRAIN SEALER: Shake the container before applying. Brush liberally on to the dry end grain and allow to dry until dry to the touch. The ends suck in the fluid quite a bit. Preferably dry with a hot air gun or other fan. Avoid boiling.

STEP 2 – SiOO:X SURFACE PROTECTOR END GRAIN SEALER: Shake and stir before and during treatment. Brush liberally on to the ends already treated with the Step 1, Wood Protector End Grain Sealer. Wipe away any spills immediately with a wet cloth. Allow to dry, preferably with a hot air gun or other fan. Avoid boiling. Fix the boards when the ends are dry.
